

English SAT Prep

The class will begin with a practice exam in order to assess student strengths and weaknesses, which will then be addressed throughout the semester in order to help students prepare for the test. Sample questions will be interwoven throughout the class in order to continually keep track of student progress and understanding. We will go over the answers to these questions at the end of the class together, and there will be time for students to ask questions about anything that was confusing or difficult. A final practice test will be administered at the end of the semester in order to have a bit more practice taking a similar test, as well as to apply everything we have discussed over the semester.

Students are requested to have a copy of *The Official SAT Study Guide: 2020 Edition* from the CollegeBoard. Students will be also asked to have a pencil, paper, and highlighter with them for class, so they can take notes, work on sample questions, and highlight important information.
